- l. USA Shooting may decline to appoint an athlete to the National Team or enter an athlete in an event, or once appointed, remove an athlete from the National Team or remove an athlete from an event if the athlete fails to satisfy the eligibility requirements above, is deemed unable to participate due to illness, injury, or other reason, fails to pass a background check, fails to complete any requirement of the United States Center for SafeSport, violates any USA Shooting Code of Conduct, or is subject to temporary or interim measures that prohibit the athlete from competing.
- m. In the event of inclement weather, power outages, range and range equipment errors, or circumstances beyond the control of the organizing staff, the team selection course of fire may be altered. It is incumbent on all athletes to ensure that up-to-date contact information is included with all event registration information, particularly email address and cell number.

- o. Athletes must adhere to all SafeSport, IOC, World Anti-Doping Agency (WADA), ISSF, United States Anti-Doping Agency (USADA) and USOPC anti-doping protocols, policies, and procedures, as applicable. - e. These Procedures only determine the right to entry into an ISSF-sanctioned international event – they do not constitute and shall not be construed as a representation or promise that USA Shooting will bear the costs of any athlete's participation in the event.

5. 2025 International Competition Three (3) Person Team Start Positions

7. Replacement of Athletes

In the event an athlete voluntarily withdraws from the Team or an event due to illness, injury, or other reason, or is removed by USA Shooting or the USOPC, the next eligible athlete from the team selection process may be added to the team for an event or for the qualification period, depending on the situation. The “next eligible athlete” is defined by the 7th and 8th ranked athlete, in that order, as per the current selection process. If further replacements are required, the next eligible athletes may be selected by USA Shooting from among the members of the National Development Team and/or Junior National Team.

Whether a replacement is named close to a scheduled competition will depend on the feasibility of international travel and administrative logistics, guided by ISSF deadlines and visa requirements.

8. Amendment of Procedures

- a. These procedures are based on IOC, and ISSF rules and regulations, as applicable and as understood at the time of publication. USA Shooting may amend these procedures in light of changes in such rules and regulations.
- b. Similarly, these Procedures may be amended to accommodate unexpected developments, forces of nature, or forces majeure.
- c. Modifications to the ISSF events rules, which are required to be reviewed before the beginning of every quad as per the ISSF bylaws, will take effect on January 1, 2025. This Selection Procedure will be updated if necessary to reflect these and any further changes made by the ISSF to the events rules throughout the quad.

- d. In the event of unforeseen changes that affect the Shotgun National Team Selection Procedures, including the team trial process, the USA Shooting Board of Directors has empowered on an interim basis, until the Designated Selection Committee is appointed by the USA Shooting Board, the following Committee: John Farra, Josh Richmond, and Steve Schammel, to determine if policy changes are necessary for items related to procedures involving the following: Schedule, Programs, Government Restrictions, and Rules or other unforeseen circumstances. Changes to the Selection Procedures, if needed, will be directed and approved by the USA Shooting Board of Directors.
